LEGISLATURE WILL DECIDE ABOUT R. I. ASKING FOR TROOPS

Meet in Special Session Today and Appropriate \$100,000 For Protection

QUESTION IS DEBATED

Rioting Ceases in the Sector Marked by Previous Fatal Clashes

(By International News Service)

Having a definite Communist menace, a troubled nation today turned its eyes to Providence, Rhode Island, as the legislature assembled in extraordinary session to determine whether Governor Francis Green should be empowered to seek aid of seasoned United States regulars in erasing the blot of Communism which has spread over the textile strike picture in the plantation state.

Despite the plea of Governor Green that the General Assembly vest in him authority to request intervention of Federal troops in terminating rioting, sabotage and vandalism in "little Rhodey", the legislators evinced reluctance to betray their state as unable to handle the situation under its own police powers.

Debate in the legislature was to open again today with a vote expected some time this afternoon.

The legislature however acted swiftly on other actions, the Senate passing a bill appropriating \$100,000 to be used for emergency expenses of state police which was referred immediately to the House Finance Committee.

Although President Roosevelt is fully cognizant of the grave situation in the New England area, it was made plain at the Hyde Park summer white house today that in no case would Federal troops be ordered into Rhode Island even if requested, until the situation has been canvassed thoroughly, at first hand by Secretary of War Dorn and Major General Fox Connor, commandant of the First Corps with headquarters in Boston.

As the State legislature assembled in Providence, a general survey of the affected area by International News Service indicated a recession, at least temporarily in rioting at the Saylesville, Woonsocket, Central Falls sector, scene of fatal clashes recently. Death toll of disorders mounted to two. Police clubs swung freely in dispersing an attempted uprising of 500 hoodlums in Providence last night.

The situation at Woonsocket was considerably quieter. Militiamen withdrew from the business district but the barbed-wire entanglements still sprawled about the Woonsocket Rayon Company plants.

At Washington, meanwhile, strike leaders disavowed any responsibility for the Rhode Island situation and went ahead with plans to make the far-flung walkout even more effective coincident with peace moves by the President's mediation Board.

The Board admittedly was faced with discouraging prospects, manufacturers having turned down arbitration proposals by strike leaders, who demanded the closing down of every mill prior to placing the issue in the hands of an arbitration commission.

RETURN TRUE BILLS

DOYLESTOWN, Sept. 14—Married twenty-eight years, the parents of ten children, and living in the same house but not on speaking terms for the past seven months, is the unusual circumstance confronting a Newtown man and his wife who appeared in the county court yesterday in a non-support hearing.

PERENNIAL PROBLEM

One of the criticisms leveled at traffic regulations is that they are not susceptible to revision in keeping with changing circumstances and conditions. The traffic problem is not static; it is in constant flux.

Traffic rules adopted today may meet all requirements, within the poor power of man to cope with such complex matters, and be entirely obsolete and ineffective a year from now. The traffic map of every community is constantly changing, but not so the traffic regulations.

Traffic control demands three things: intelligent supervision, flexibility and uniformity. In most communities all three of these essentials are lacking. The result is too much or too little regulation.

Speed limits do not keep pace with fluctuating conditions. Stop lights still block and slow up traffic where boulevard stops would expedite the flow of traffic without increasing the hazards. The criticism holds for parking, one-way streets and turns.

The sooner those charged with traffic control learn that one good solution deserves another—that their job is never done—the sooner will there be traffic control in fact as well as in name.

OMEN

Montana, where winter is winter, comes forth with the first weather sign for the approaching unpleasantness; a sign in which gooselike prophets read a prophecy which should make glad the hearts of winter resort magnates.

Deer returning earlier than usual to the plains and foothills from their summer feeding grounds in the mountains tell the mountain men that the winter will be early and hard. As to its length, some other weather sign must be found and interpreted.

This supposedly prophetic conduct of the Montana deer cannot be attributed to a scarcity of forage in the highlands, since it is known that the grazing is better in the uplands than in the lowlands. And knowing of nothing else to which to attribute it the weather prophets deduce that a hard winter is headed hell-bent in their direction.

Perhaps the instinct of the deer has warned it, and then again an early breath of cold air out of the north may have deceived the animal instinct. It would not be the first time that migrating animals have departed too soon or remained behind too long.

Some men have no place to borrow money and others give their wives an allowance.

Let no man boast of his true till he is rich enough to be independent of public opinion.

ONE BULLET KILLS TWO

A Paying Investment

DEVOE HOUSE PAINT

★ There is no mystery about the savings you get with Devoe House Paint. Immediate savings come through greater covering capacity—each gallon covers from one to three hundred square feet more than cheap, bargain paint.

★ By far the greatest savings come through longer wear—ranging from one to three years longer than ordinary paints. Because Devoe House Paint does last longer, you save not only the cost of an extra coat of paint but also the cost of putting it on. And labor runs from three to four times greater than the cost of the paint itself.

Cheap paint is expensive at any price. Devoe House Paint costs a little more per gallon—but the extra cost is repaid many times over in greater covering capacity and longer wear. Come in today for an estimate.

EVENING CLOTHES SHOW A DEPARTURE FROM RECENT PAST

By Nadia De Beaud

(L. N. S. Fashion Correspondent)
PARIS — (INS) — The evening clothes shown by Lucien Lelong marked a brusque departure from the past, for whereas the top of the body was widened by winged effects over the arms and in the back, the silhouette quickly narrowed down to a skirt, just barely permitting comfortable walking which trailed off into a long pointed train. The décolleté was often high in front, draping in loops over the shoulders and giving the windswept movement in the back. The back was invariably bared under the arms to the waist.

Clinging velvets, glittering satins and discreet lame materials were used. Over the gowns, capes, often fur lined, were shown, as in one particularly exquisite model in a green and rust-brown moire ensemble. The cape was sable lined, the ends thrown back over the shoulders in sumptuous abandon, the sheath gown below dwindling to a slender train. Another novelty were the capes to the waist-line and longer, definitely bloused,

with armholes allowing the wearer to hug them closely.

PRESERVE SPUDS

MOSCOW — (INS) — As fall approaches, Moscow meets its usual problem—how to store its potatoes for the winter. The latest scheme proposed to the Moscow Cooperatives is "sulphiting" of the vegetables. It appears that potatoes dipped in a sulphur solution of secret composition will last for years. It is estimated that 16,000 tons of potatoes are lost here annually, through rotting or freezing in winter storage.

Mrs. Esther Vasey, Camden, N. J., was an overnight guest of Mr. and Mrs. Leonard Fenton, Harrison street. Mr. and Mrs. Jack Delaney and family, Mayfair, spent two days visiting Mrs. Delaney's mother, Mrs. Catharine White, Lafayette street.

Let Chevrolet tell its own story of riding and driving comfort

Make the ownership test

One Ride

is worth a thousand

words

THE best way to get at the truth behind the fine things you hear and read about the new Chevrolet, is to get in the car and drive. Take this car, drive it over the same routes, in the same way you drive your present automobile, and let the results you can see and feel tell their own story. You have heard that Knee-Action makes bad roads good, and good roads better. A ride will prove it. You have heard that Chevrolet provides shock-proof steering, Synco-Mesh gear-shifting, a remarkably flexible 80-horsepower engine, and cable-controlled brakes. A few minutes at

the wheel will show you what a difference these advancements make in safety and driving ease. And when the ride is over, and you step out refreshed and ready for more, you will know why so many thousands have found it impossible to return to ordinary driving after an experience like this. That is the Ownership Test—easy, enjoyable, and the most practical way to choose a car.

ELKS SHOW THE WAY TO B. B. C. IN LEAGUE GAME

The Elks bowlers last night stepped right out to show the way in the Bristol League by defeating the B. B. C. three games, a total of four points. Jackson of the Elks exhibited his capability as anchor man, having a total of 578, and high single of 235. Fields, a new member in the league, was the best man for the B. B. C. with a total of 527.

The National League staged two matches last night and the J. A. C. started off on the right foot by taking over the Madisons for all four points. Syd Purcell starred in this match, having 528 for the match and high single with 213. Dick Foltz with 432 was high scorer for the Madisons.

In the other match the new league members, Prudential Insurance Company and American Stores came together and staged an interesting match. Prudential gaining the edge by winning the second and third games and total pins, a total of three points to Asco one point.

Considering that the majority of the National League bowlers are either just starting this year or the latter part of last year, quite good scores prevailed and before the second round begins a creditable improvement will be noticed.

Following are the scores of last night's matches, also the league standing and the schedule for next week:

BASEBALL FANS AWAIT WEEK-END DOUBLE BILL

Baseball fans of this vicinity are eagerly awaiting the week-end double bill between the Edgely Braves and Hulmeville A. A. The Braves are the Bristol Twilight League champions and Hulmeville captured the Lower Bucks County League title. Tomorrow the tilt will be played at Hulmeville while Sunday will see the teams battling at Edgely.

The Braves broke all records in the Twilight League by winning all of their scheduled games. They won the first half with ten straight victories and they captured nine straight to win the second half. During the entire season the Braves have won over thirty-five plays.

Registered U.S. Patent Office

Washington, D.C.

Not like any other cigarette—

Chesterfields are like Chesterfields

WHEN a trade-mark is registered, it means that no one else can use the same name and the same package for the same kind of product.

To us the Chesterfield trade-mark means that every Chesterfield is manufactured by the same formula, and

in every way absolutely the same in each and every package you buy.

That means that every Chesterfield is like every other Chesterfield—not like any other cigarette...

—the cigarette that's milder
—the cigarette that tastes better
—the cigarette that satisfies
